

# Qualität verbindet.

Communication connects people.  
Trust connects partners  
Flexibility connects time and space.  
Efficiency connects aims.

## About us

- ⦿ We were founded in 1978
- ⦿ You can find us in Hamburg, Gelsenkirchen, Waghäusel (Mifitt + Edinsa), Stoneleigh Warwickshire (GB), Bratislava (SK, DINANSI) and in Ostrava (CZ, FIMATECH)
- ⦿ We employ 100 people in all parts of the company

## About us

- ⦿ We supply our customers worldwide
- ⦿ You can also find us on well-known trade shows like the MIOGE in Moscow, the OSEA in Singapore, the STAINLESS in Brno and the TUBE in Düsseldorf

# Our Warehouse

- We have one of the largest warehouses for flange stockholding and machining in Europe
- Our Headquarters and warehouse in Hamburg is 10.000 m<sup>2</sup>
- We have 5.000 tonnes of flange stock in varying grades of material
- We have a semi automated picking system with over 10.000 locations

## Our warehouse

- ⦿ Our flange stock comprises of Carbon Steel, Chrome Moly, Stainless Steel and Duplex
- ⦿ Furthermore we have an assortment of pipe and pipe fittings in our stock range
- ⦿ We offer all our stock according to EN and ASME norm
- ⦿ Since 2018 we have started to stock the most common sizes of seamless boiler tubes

## Our serial manufacturer

- ⦿ We are not only a Stockholder but we are also a manufacturer
- ⦿ Our serial production makes it possible to produce flanges “Made in Hamburg”
- ⦿ At full capacity our production team can produce 10.000 flanges per day

## Our individual manufacture

- ⦿ For our smaller production quantities we are also fully CNC automated
- ⦿ We are able to machine wall thicknesses to our customers requirements. We are able to machine all sealing faces such as Raised Face, Flat Face, RTJ, Tongue and Groove, Male, Female. We also bevel to standard and to customers specified requirements
- ⦿ We can manufacture special turned parts to customers specified drawings

# Innovations

- ⦿ We regularly invest in new machinery and technology (DMG MORI, EMAC)
- ⦿ It is our aim to optimise the quality of our products as well as our working processes constantly
- ⦿ In order to obtain the best service to our high quality products, we invest in training and further education of our employees

# Sustainability

- Due to the implementation of an environmental management system according to EN ISO 14001 we face the challenge of economical use and ecological responsibility as equivalent goals
- We guarantee environmental protection standards and security standards, by evaluating and improving the operational environmental protection on a continuous basis

# Our promise of quality

⦿ We have following certificates and approvals:

- ⦿ Certificates ISO 9001 / ISO 14001 / OHSAS 18001
- ⦿ Approved manufacturer according AD2000 W0
- ⦿ Certificate according to PED 2014/68/EU
- ⦿ Stamp approval by TÜV-Nord, BV, LRS und DNV-GL

⦿ As a flange manufacturer, we issue our own certificates according to EN 10204 3.1
