

SLOVAKIA **N+F** BOHEMIA

**WE GET MORE DONE  
TOGETHER**

SLOVAKIA **N+F** BOHEMIA

**WE GET MORE DONE  
TOGETHER**

**N+F Slovakia, s.r.o.** is a subsidiary of the traditional German supplier and manufacturer **N+F GmbH**, part of a multinational network of partner companies **operating since 1978**, with a strong and stable financial background and a cumulative turnover (2018) of **over EUR 250 million**.

Thanks to the partnership with top suppliers, N+F Slovakia and N+F possess all required certificates guaranteeing quality and professional level of the provided services and products (ISO 14001:2015, ISO 9001:2016, OHSAS 18001:2007, ADW 2000, PED, and more).

**We are a provider of industrial services for the construction, maintenance and repairs of piping routes and facilities mainly in the following fields of industry:**

- Petrochemical industry
- Gas industry
- Energy industry
- Nuclear industry
- Chemical industry
- Mechanical engineering industry
- Pharmaceutical industry
- Food production industry

**We provide comprehensive supplies** of flanges, piping and piping equipment.

We can provide material according to all existing and available standards (ASME, GOST, ADNOC, EN, DIN, BS, PN, MSZ, ISO, STN, CSN)

**We supply material in all quality classes** from simple carbon steel to superalloy stainless steel (e. g. stainless steel, Duplex, Alloy, SuperAlloy, Titan, and more), including cast metal and non-ferrous metals.

We manufacture custom components according to drawing documentation, and machine various pre-materials.

We use our own production facilities and machines, which enable us to respond flexibly to your individual requirements and orders. **This is how we save your financial resources and time.**

Our activities are focused mainly on following:

**Pipes:**

- seamless
- welded
- finned
- U-bend
- insulated: PE, PP, FCM-s (cement insulation, and more...)

**Pipe accessories:**

**Flanges:**

- Weld-neck
- Blind
- Lap-joint
- Threaded
- Socket weld
- Slip-on
- Spectacle blind
- According to drawing documentation

**Weld-on:**

- Elbows – 45°, 90°, 180°
- Bends – 3DN, 4DN, 5DN (15°, 30°, 45°, 90°)
- Tee pieces equal/reduced
- Crosses
- Concentric reductions
- Excentric reductions
- Caps

**Threaded:**

- Elbows – 45°, 90°
- Tee pieces equal/reduced
- Crosses
- Couplings
- Couplings reduced
- Half couplings
- Plugs hexagonal
- Swage nipples
- Unions
- Hexagonal nipples
- Pipe nipples

**Socketwelds:**

- Elbows – 45°, 90°
- Reducing inserts
- Tee pieces equal
- Tee pieces reduced
- Crosses
- Caps
- Couplings
- Couplings reduced
- Unions

**Outlets:**

- Sock-outlets
- Thread outlets
- Weld-outlets
- Nip-outlets
- Lateral outlets
- Elbow outlets
- Flanged nipple outlets
- Nip-outlets
- Lateral outlets

**Forged pieces for production of:**

- Flanges
- Shafts
- Tees
- Rings

**Forged:**

- Bars
- Cubes
- Rings
- And other shapes according to customer requirements

**Pipe clamping:**

- Two-parts pipe clamp
- Clamp for steel pipe
- Hanging rod
- Suspension eye of round steel
- Suspension eye from flat steel
- Sliding support
- Axial sliding support
- U-bolts
- U-bolts according
- Angle hanger

**Steel profiles:**

**Bars:**

- Round
- Flat
- Square
- Hexagonal
- L non-equilateral + equilateral
- Cross-sections: T, I, IPE, U, UE, UPE, HEA, HEB
- Open thin-walled profiles, cross-sections: L, C, U
- Concrete steel smooth, finned (bars, coils)
- Welded meshes for concrete
- Steel wire coil

**Fastening material:**

- Bolts
- Nuts
- Screws
- Washers and more

## Sheet metals:

- Smooth (matte, polished)
- Patterned
- Perforated
- Shaped (wavy, trapezoidal)
- Wide steel
- Belt steel

## Services:

## Destructive testing:

- Tensile tests
- Brittleness tests
- Bending flexural tests
- Macro-analyses
- Hardness tests
- Various tests as required

## Non-destructive testing:

- VT - visual tests of welds
- PT - penetration tests
- MT - magnetic tests of welds
- RT - X-ray tests of welds
- UT - ultrasound tests
- LT - leak tests

## Surface treatment:

- Galvanisation
- Pickling
- Passivation
- Sanding
- Grinding
- Polishing

## Production and machining:

- Machining according to order
- Production according to drawing documentation
- Material cutting
- Bending

## Certification:

- EN10204 - 3.2 certification
- EN10204 - 3.1 certification
- Declarations of conformity and more

## Armatures:

- Armatures can be supplied through a network of specified contractors and manufacturers.

Thanks to our abilities and the comprehensive services we provide,  
we operate on a global scale:

## Our references and experience come from the following projects:

- Supply of pipes and piping equipment for Suncor Energy – Canada
- Supply of pipes and piping equipment for Aker Solutions – Canada
- Supply of flanges for Woodside Energy – Australia
- Reconstruction of the Felton thermal power plant – Cuba
- Long-term supplies for projects of Rozneft – Russia
- Construction and maintenance of the Mochovce nuclear power plant – Slovakia
- Maintenance of the Jaslovske Bohunice power plant – Slovakia
- Maintenance of the Dukovany nuclear power plant – Czech Republic
- Maintenance of the Temelin nuclear power plant – Czech Republic
- Maintenance and overhaul of the BorsodChem chemical plant – Hungary
- Investment construction, overhaul and maintenance of the Slovnaft refinery – Slovakia
- Supply of pipes for Wood Group - Canada
- Supply of fittings for SHELL Global – Australia
- Supply of flanges for Exxon-Mobil – Australia
- Supply of pipes for Petron - Philippines
- Maintenance and repairs at NaftanNovopolotsk – Belarus
- Long-term supplies for projects of the TOTAL France group – France
- Investment construction, overhaul and maintenance of the Preem refinery – Sweden
- Long-term supplies for projects of the SHELL group – Netherlands
- Supplies of material for the maintenance of Clariant Southern Africa – South Africa
- Maintenance of the Wacker Chemie manufacturing plant – India/Poland
- Long-term supplies for projects of the ÖMV group – Austria
- Long-term supplies for projects of the LINDE group – Germany
- Maintenance and overhaul of the Litvinov refinery – Czech Republic
- Investment construction, overhaul and maintenance of the Duslo chemical plant – Slovakia
- Regular, accredited and certified supplier for Bayer, BASF, Lanxess, Covestro, Ineos, Evonik – Europe, Africa, Russia etc.
- And others

## We follow three basic principles:

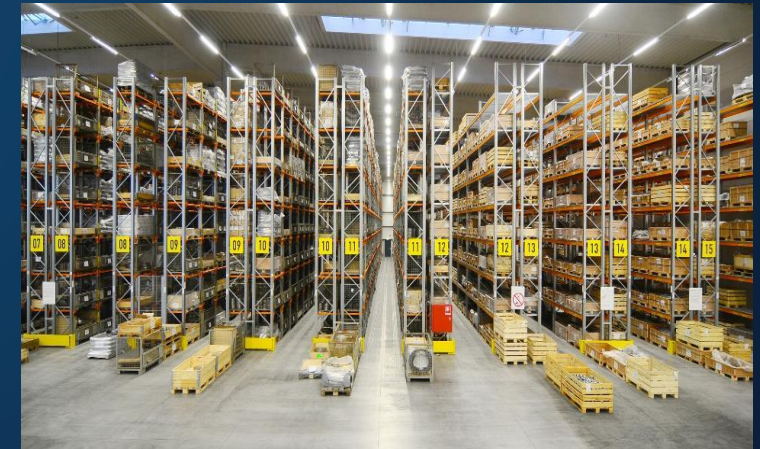

### Speed:

- The option of express production within 24 hours and delivery of required products (shorter production shutdown/delivery period)
- Certified warehouse stocks of over 12,000 tonnes/in stores in SK, CZ, DE, GB (the benefit of responding promptly and flexibly to your short-term requirements)
- Accredited production capacities of over 10,000 pcs/day with the option of express delivery
- Own large fleet of vehicles
- Several strategically located (port of Hamburg, Slovnaft premises) warehouses in the EU to meet your needs faster and more efficiently

### Quality:

- Guarantee from a consortium with global presence and tradition since 1978
- Required certificates for each product
- Certification and approval in compliance with international standards and directives
- Possibility to provide the EN 10204-3.2 certification with TUV verification and others
- Inspection of materials in cooperation with accredited testing organizations
- Efficient management
- Preferred material origin: the EU and the US
- Dual inspection

### Reliability:

- Strong and stable financial background of a multinational consortium
- Insurance cover from EUR 20 million for delivered products
- Strong partner for emergency and crisis situations
- Experienced and professional multinational team
- Long-term experience
- Individual approach
- Knowledge of the environment and requirements of the MOL group

### We are also ready to provide you with the following:

- An investment package allocated by the group for your projects
- Possibility to create a contractual **central consignment warehouse** and rise rentability of your projects – at your premises – **significant saving of financial resources**)
- Our system of work saves **time, is clear, transparent and sustainable, with a credible background.**

The goal of N+F Slovakia s.r.o, as a representative of a multinational consortium, is to be a loyal, stable and long-term supplier and partner.

At N+F Slovakia s.r.o., and at the whole group, we properly fulfil all our obligations towards our partners and government institutions.

**N+F Slovakia, s. r. o.**  
Member of N+F group
